DARKSKY COMPLIANT

Similar to traditional wall packs, these cut-off led fixtures offer a light shield to get more focused downcast light as opposed to the more exposed and widespread illumination.

SELECTABLE CCT & WATTAGE

There are allowed 3 different wattage and color temperature settings with simple slide switches, such as 36W-48W-56W and 3000K-4000K-5000K.

HIGH EFFICACY 140 LPW

With high performance of chips, these lights can output up to 140 lumens per watt. 120 watts are designed to replace less-efficient 400 watts MH lamp and save electric costs by 80%.

ORDER INFO

Com.	Series	Power	Voltage	CCT	Option	Duration (EM)	Diffuser
LT	WPO1	40	Blank=100-277vac	30K=3000K	DM= 1-10VDC Dimming	Std.=90 Min.	Std.=Glass
		60	HV =200-480vac	40K=4000K	PC= Photocell	2H= 120 Min.	P=Plastic
		60CP	EV=200-240vac	50K=5000K	MS= Motion Sensor	3H= 180 Min.
